Descriptions may be found in our Spring 1956 catalog. If you have misplaced yours or have not received one, a copy will be forwarded on request.

**GRAFTS** are strong healthy scions on sturdy understocks established one year in the pot and are available after May 1st.

**ROOTED CUTTINGS** are individually selected, graded, made up and stuck assuring maximum uniformity. Roots are the best possible. Nothing sold that will not grow given proper care.

**PICK UP DISCOUNT.** All orders picked up at the nursery that do not require special loading or preparation will be permitted a discount of 2% in addition to regular discounts.

**HARDY AZALEAS**

We offer only **hardy** varieties that have been tested over a period of years. Our temperatures go below zero every winter. In 1954 we had 20 below.

Only strong cuttings are taken and rooted. In the fall they are potted or flatted and placed in greenhouses where they grow through the winter into fine Spring Liners. More important — they grow because they want to and have everything they need. We do not force them chemically. You will get a good hardy plant ready to take the abuse of transplanting without set-back.
